MANHATTAN COLLEGE.

Introductory Sketch.

Situation: Manhattan College, located in Manhattanville, New York City, occupies an elevated position on the east bank of the Hudson, and commands an extensive view of the river and the Palisades. Sufficiently far from the business part of the city to secure that retirement which is essential to persevering and successful study, it is yet near enough to afford easy access to the principal public libraries, art galleries, zoological and geological collections, etc.

Establishment: Manhattan College was organized and founded in 1853 by the **Brothers of the Christian Schools**. In 1863 it was incorporated and chartered as a College by the Regents of the University of the State of New York, with power to grant all usual degrees.

Object: This Institution offers students the means of acquiring the highest grade of liberal education. It aims at training up Christian gentlemen and good citizens, and, by its varied course of study, supplies the necessary preparation for all the walks of life.

Method: Under the conduct of the Brothers of the Christian Schools, Manhattan College enjoys the advantages of the experience

of over two hundred years' teaching. Care is taken that every branch prescribed be thoroughly studied, and that nothing be learned merely by rote. With this view the students discuss the subject matter of each lesson in class independently of the language of the text book, criticise one another's work, and give free expression to their opinions on all points open to debate. They thus accumulate ideas instead of mere words, they digest what they learn, and acquire thoughtfulness, self-reliance, and facility of expression.

Since the vernacular language and literature constitute an essential feature of a sound education, special attention is given to their study, and no effort is omitted to make the students proficient in writing and speaking English.

The work done in class each month is examined, and reports of the progress of the students are sent regularly to the parents.

Organization: Manhattan College is organized into three Departments: Collegiate, Intermediate, and Primary—each embracing several grades of classes. Thus parents who wish their children to enter the Institution at an early age meet with every facility.

A thorough **Business Course** is added for the benefit of young men who propose to engage in mercantile pursuits, and who cannot command the time necessary to pursue the regular college course.

Students may either attend as **Day Scholars** or **reside in the College Building**, subject to regulations necessary to maintain good order and discipline. Before and after class hours resident students are under the charge of special prefects, and complete separation of the younger from the older pupils is secured.

Physical Training: Aware that physical training is also necessary to a thorough education, the Faculty spare no pains to se-

cure for their students all the advantages to be derived from approved modes of exercise.

Discipline: The Faculty rely mainly on paternal advice and moral influence to secure propriety of conduct, diligence in study, and gentlemanly deportment. The discipline is mild but firm.

As the College is conducted by the Brothers of the Christian Schools, the public need hardly be assured that the utmost attention is bestowed on the moral and religious training of all confided to their care.

Further information may be obtained by addressing the Secretary.

Officers of Manhattan College.

By virtue of the Charter of Foundation and Incorporation, all the authority, right, and titles of Manhattan College are vested in a Board of Trustees, and exercised by officers duly elected.

The officers as at present constituted are :—

REVEREND BROTHER JUSTIN

President.

REVEREND BROTHER THOMAS,

Director and Treasurer.

REVEREND BROTHER JOHN CHRYSOSTOM,

Secretary.

The above named officers constitute the
EXECUTIVE COMMITTEE
of the Board of Trustees.

Admission to the College.

The most favorable time for entrance is in September, at the commencement of the scholastic year. Students will, however, be received at any time during the year, but not for a shorter period than five months.

Newly-admitted students must present a certificate of good character and, if they come from another Institution, a letter of honorable dismissal.

Each student, on being admitted, is examined and classified according to his attainments.

Students from affiliated schools bearing certificates of having satisfactorily completed the course of studies in said schools, will be admitted to the corresponding class in the college without further examination.

Parents residing in distant places are required to have in New York City a responsible person to act in their name, and to receive the student in case of dismissal.

General Regulations.

The Session begins on the first Monday in September, and ends on the last Friday in June. It is divided into two terms beginning respectively on the first Monday in September and on the first day of February.

Promotions are made regularly at the end of the scholastic year, and occasionally at other times, when the work of the students, joined to the appreciation of the professors, shows fitness for a higher class.

Examinations are held every month, and summarized reports of same are furnished parents at Christmas, Easter, and the end of the session.

Letters, etc., from others than parents or guardians are liable to inspection.

No student will be retained who is insubordinate or who is known to indulge in vicious habits.

Students are not allowed to leave the College grounds without due authorization. No interruption is permitted in a student's lessons during class hours, except for grave reasons. Students may be visited on Sundays in the afternoon from one to five o'clock.

The attention of charitable benefactors is called to the good which may be done to society by founding scholarships to pay, in part at least, the expenses of deserving and promising students, who otherwise might not be able to obtain the benefits of a Christian education. Full particulars as to making these foundations may be obtained by applying to the President or Secretary.

SOCIETIES.

Religious Society.

THE HOLY LEAGUE OF THE SACRED HEART OF JESUS is established among the students with the object of fostering piety and devotion, and of acquiring more thoroughly the true spirit of Christianity.

Literary, Scientific, and Musical Societies.

During the year the students organize themselves into various literary, scientific, and musical societies, and give entertainments to their friends.

In the winter months these societies give a regular course of evening lectures on entertaining and instructive subjects, frequently illustrated by stereopticon views.

These lectures and entertainments are found to be efficient means by which the students acquire self-possession, ease of diction, and grace of delivery.
